13th July 2019

Dear PINNT members

Re: Calea supply of PN issues update

Following on from our letter to members on 11th July, we wish to share further information.

It has been confirmed that Chief Pharmacists and Procurement Leads in each Trust have received an official communication from the Department of Health and Social Care in relation to the on-going supply issue. They, together with your relevant healthcare professionals will have discussed this and made the necessary plans for their patients. We ask people to bear in mind that each patient's circumstances will be different.

We can assure you that a large team of people are working with several bodies, including Calea and the Medicines and Healthcare products Regulatory Agency (MHRA) to co-ordinate this process during this difficult time. It is an evolving situation.

Again, please speak to your/your child's healthcare professionals if you have any concerns or questions about PN/fluid requirements. Also, if you're not receiving what you're expecting, run low or are out of stock; make them aware of this as soon as possible.

We will share any further updates as and when we have them.

Please feel free to contact us at any time on comms@pinnt.com

Regards

Carolyn Wheatley
